

HINUERA SCHOOL CROSS COUNTRY

THURSDAY 10 SEPTEMBER 2020

Dear Parents and Caregivers

Start time: 1.10 pm To be held at: **The Hinuera Rugby Club.**

Please read this whole notice carefully, as it contains several changes due to this event now being held under Covid Level 2.

- The races are to be in the following order (**Note the change**):
5 Year olds → 6 Year olds → 7 Year olds → 8 Year olds → 9 Year olds → 10 Year olds → 11 Year olds
(Girls followed by Boys)
- Children will need to be dressed suitably for running: shorts or lose track pants and a t-shirt. They will need warm clothing before and after their race. It is important they have their drink bottles.
- Parents with children who require asthma medication are encouraged to discuss the race with their children before hand and ensure that they are prepared with their inhalers.

There are always risks with events like this, although they often may be minor. For the Cross Country, the main risk could include tripping during the run, or getting lost at the different venue. Please discuss these issues with your child before the race.

Special Covid Level 2 Instructions

- All spectators will need to stay in one of three special viewing areas, which can have no more than 100 people.
- Please check the following map, and work out which area will suit you best, and note where you should be parking to access this area.
- Please use the links below to register your name/s for the area you wish to use. This will allow us to see if any area is filling up before Thursday and let you know if it is full. It will also mean your name is pre-printed on the sign in form. We will allow people to sign in on the day, but please be aware that this will mean they run the risk of the area being full when they arrive, and having to go to another area.
- Registration and entry to viewing areas opens from 12:45pm. Please don't come early, or come to visit at school on your way there, as we will be marshalling children and getting ready to head over to the club.
- We will be pausing the races after the 6, 8 and 10 year old races to release children to any families that wish to leave at this point, a bit like we do at the front gate at the end of school. Please wait until called and maintain social distancing as you move to the pickup area in the middle of the field (see map). Once we can see you there, we will release children to you. We ask that you then promptly move off to vehicles and head away, maintaining social distancing the whole time.
- Please don't approach the student area during the afternoon, as we will need to keep them separate until you are heading away to be able to run this event properly under Level 2.

Many Thanks – Dean McDonnell, Principal.
